### **EXAMINER'S AMENDMENT**

1. In view of the allowance of the generic claim, the election of species requirement is withdrawn by the examiner. All non-elected claims are allowable.

### **REASONS FOR ALLOWANCE**

2. Claims 2-4 and 6-9 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Olschewski et al. (US 4,946,296) disclosed a rolling bearing assembly having a pulse generator 13, said bearing assembly comprises a stationary 4 and rotary 19 bearings one positioned inside the other; a sealing member 11, 14 secured to the stationary bearing ring; and the pulse generator secured to the sealing member; wherein the sealing member includes a plate-like core metal 9 fitted to the stationary bearing ring, and an elastic member 22 made of rubber and integrated with the core metal.

French et al. (US 6,161,962) teaches bearing with sensor module B that may contain a speed sensor, temperature sensor and acceleration sensor.

However both prior arts failed to disclose the temperature sensor contacting and being affixed to a plate surface of the core metal at an intermediate portion of the core metal and determining a temperature of the core metal.

The aforementioned limitations and the arrangements thereof are not taught in the prior art. In light of the foregoing, the claims of present application are found to be patentable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mariano Sy whose telephone number is 571-272-7126. The examiner can normally be reached on Mon.-Fri. from 8:30 A.M. to 2:30 P.M.
